

***State of New Hampshire
Superior Court***

Administrative Order 2011 – 46

Consistent with the New Hampshire Judicial Branch initiative to institute e-filing throughout the court system over the next several years, the Superior Court recognizes that parties currently desire to serve pleadings through email. Accordingly, the following administrative order is issued to facilitate e-service.

Service to the opposing party by email shall be considered in compliance with Superior Court Rule 21 as long as the certificate of service indicates that service was achieved by email, and as long as the recipient identifies an email address to which service can be made.
